Voice Genesis Raises \$1M

Los Angeles-based Voice Genesis is set today to announce a \$1M investment in the firm by angel group Keiretsu Forum. The developer of mobile messaging software develops software for voice response to emails on a mobile phone. According to the company, the round follows a \$500,000 angel round of funding from earlier this year. The company said that the funding would be used to accelerate product development and support for mobile phones.
